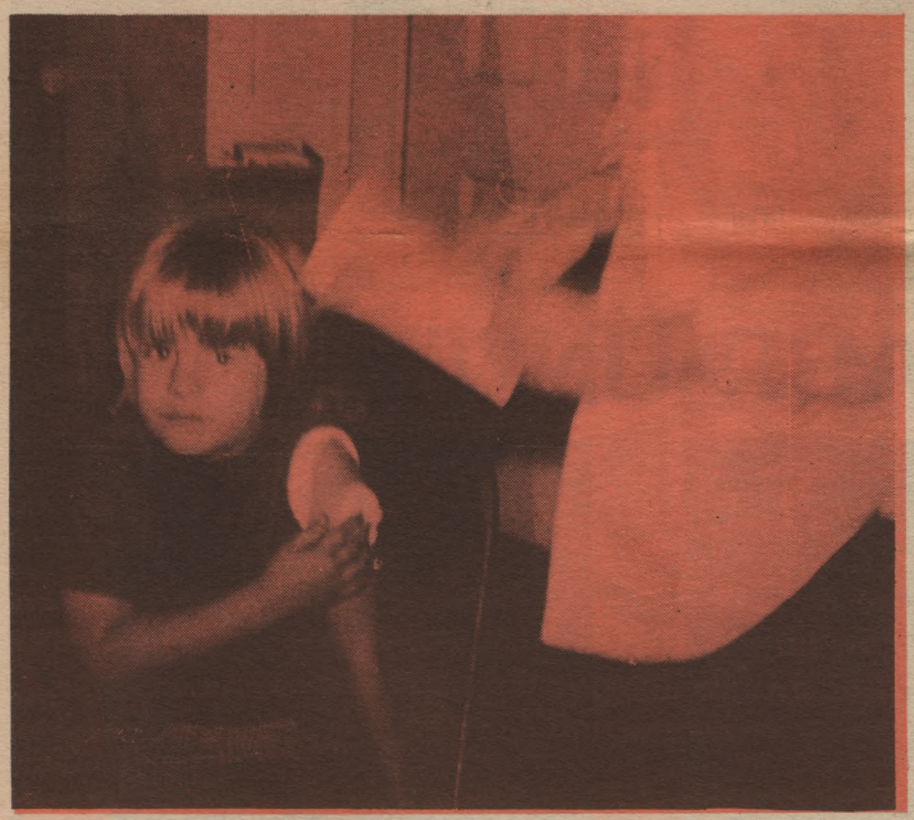
CHILDREN'S FREE IMMUNIZATION PROGRAM



The Fritzi Englestein Free People's Health Center is announcing a new program to serve the people. We will be going house to house to find out what immunizations children need and rap to the families about any other medical problems they might have.

The need for such a program should be evident to all those who might remember that there was a Diptheria epidemic last winter in Chicago. Everyone knowsthat there would be no epidemics if Murray Brown (the Board of Health Commissioner) had done his job of making sure the people are in good health. He announced a "big plan" to wipe out contagious diseases in Chicago. But his plan of action was not enough; and now cases of Diptheria are again being reported as the weather gets colder. Polio cases have also been increasing. The workers of Fritzi Englestein Free Peoples Health Center have decided that if Murray Brown's word is about as good as ever, then action must be taken now to make sure that the people are as healthy as possible. If the government doesn't care about the people--then we'll have to care for ourselves. The vaccinations are there, but the Board of Health doesn't make them available to the people.

Our medical groups of the Outreach and Immunization Program will visit homes in the neighborhood to set up appointments for kids to get their shots and be tested for other medical problems the family might have. And the Health Center will start to take care of these problems and get people together to demand what is rightfully ours from the hospitals and medical facilities in our community. We will do free testing for anemia, lead poisoning, sickle cell anemia, V.D., pregnancy and pap smears, and some infections.

This Free Health Center opened in May, 1970 and since then it has cared for about 2,000 patients. We have seen people with all types of medical problems: pediatrics (for children), gynecology (for females), Venereal Disease, Eye Care, Cardiology (heart), etc. Now we feel it is important to bring these programs out to the people in their homes.

If you would be interested in helping with this work, by informing your friends and neighbors about our programs, or by working at the Health Center, please contact us right away.

PEOPLE'S GRAPEVINE

FASCIST POLICE TRY TO CLOSE LLOYD PARK (LaCrosse and Dickens)

The Chicago police demonstrated their viciousness to the people of the Lloyd Park Neighborhood Sunday night, October 3rd. A brother who hangs at the park had a minor traffic accident by the park when the door of the car he was driving flew open and hit another car, breaking a tail light. The owner of the other car called for the police and also beat up the brother who was driving the car. When the pigs came they started to do a number on the brother too, but he broke away and ran down an alley. One graceful pig tripped on the curb and another fell on the pavement, but a third started shooting at the brother. The pig claims he was firing warning shots, but witnesses in the neighborhood, including one older man, claim that the pig was aiming at the brother. The brother dove into a yard and just laid there too tired to move. A pig came into the yard and started to pistol whip and kick him. The brother later showed up with a broken wrist, broken and bruised ribs, and stitches in his head. Other people in the neighborhood started yepping at the pigs to stop. One woman witness thought that the brother was dead, but the pigs just continued to beat on him.

When the pigs ordered the yard cleared, one other brother was beaten by the pigs while his arms were held and later arrested. On the way to the station, a fat pig bounced the seriously injured brother's head against the wall of the wagon. They later beat him some more at the station house before they took him to Cook County Hospital.

But all this still was not enough for the pigs. The following night, Monday, Oct. 4, they came by the park before closing hours and busted four more people, one woman on a phoney drug charge and three brothers who were outside the park for disorderly conduct. One of these brothers is now in Audy home and shows signs of being beaten, while the two others are also bruised as the result of a pig beating. Tuesday night they busted two more people. Both of them got messed over by the pigs. One brother got it in the station parking lot when he came to get his partner out of jail. Wednesday night 10 more people got busted in the park for no reason. They were just talking quietly and trying to figure out what to do about all the harrasment which has occured in the neighborhood when the pigs vamped on them.

One of the best definitions of a pig is that he is a "foul evil traducer usually found masquerading as the victim of an unprovoked attack". The pigs harrasing people in Lloyd Park certainly fit that description. What else could you call a policeman that beats up on someone and then charges them with assault? The pigs are also demonstrating that their bosses and the people who run Chicago are willing to let the pigs take any measure, no matter how vicious and brutal, in order to keep people from getting together. They are afraid that when people get together, they will eventually come to understand that they have power to change things. And when that happens, the power of the ruling class is diminished. Dig it! The pigs actively and brutally repress any kind of political actions designed to unite people. They murdered Fred Hampton and Mark Clark for that reason, and today they try very hard to keep organizations like Rising Up Angry and the Black Panther Party from moving freely among the people with our newspapers and our raps calling for unity of all people. They bust up parks, street corners, break into peoples' cribs, and try to stimulate gangbanging whenever they have the chance.

Our defense from these pig tactics is organization and unity. We must go into the neighborhoods like Lloyd Park and build struggles which will show the pigs and their bosses that we can not be messed with forever. Repression builds resistance. We are being repressed and we must begin to resist in a clearly thought-out and organized way.

The people of the Lloyd Park neighborhood are thinking of several ways of moving. One way is to file suits against the pigs. Rising Up Angry will assist this movement through our People's Legal Clinic. We will also defend those people charged with crimes as the result of these pig actions. In addition, the people of the neighborhood may organize a People's Trial in which the pigs will be tried by a court made up of people in the neighborhood. They may also organize a march on the pig station and demand that the community have control over the actions of the pigs in the neighborhood.

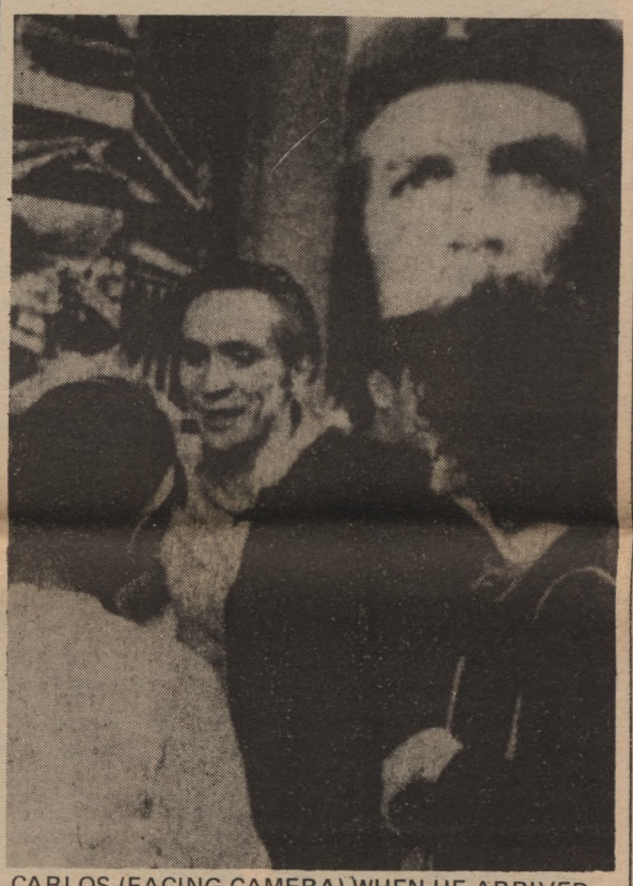
Rising Up Angry will aid the Lloyd Park struggle in any way we can. We have been on the streets of Chicago as an organization for over two years now and have seen countless examples of pig brutality. We are willing to join in any struggle, anywhere in the city where people are being messed over by the pigs, their boss, the landlord, the schools or anyone else. We understand that things are getting heavier all the time for the poor and working people of Chicago and all over the world. Our organization is dedicated to building a revolution which will take power out of the hands of the fascist pigs and big businessmen and put it in the hands of the people.

SERVE AND DEFEND THE PEOPLE!
RIGHT ON TO THE PEOPLE OF LLOYD PARK!

VENCEREMOS MEANS WE WILL WIN!

When Carlos Perez applied to go on the Venceremos Brigade last winter, he hadn't been involved in the "movement" very long. He was just getting hip to what was happening. But as one brother said, "Carlos has to go to Cuba, because he loves the people!"

While he was in Cuba, Carlos showed his love for the Cuban people and their revolution not by fancy speeches or slogans, but by the hardest work. He was the Venceremos Brigade's vanguard canecutter because he understood that every stalk of cane he cut was a blow against the same US imperialist system that was messing over his people in Puerto Rico and Chicago and the world. He saw the similarities between the liberation struggles of the Cuban and Puerto Rican people and dedicated himself to helping all people free themselves as the Cubans had.



CARLOS (FACING CAMERA) WHEN HE ARRIVED IN CUBA ON THE VENCEREMOS BRIGADE.

When he returned from Cuba, he went right to work, coming miles from home to the Free Breakfast for Children Program and Liberation School. He loved children and came to teach them--especially our young Latin comrades--to rap with them in Spanish, to sing with them, and love them.

On Sept. 8th, Carlos was shot and brutally beaten. The pigs say he was trying to single-handedly rob a bar, but we know Carlos and know that he was no suicidal individualist. The police reports were full of contradictions. We will never know what really happened that night, because Carlos was never able to tell us before he died, after a 17 day struggle for his life.

Carlos was a fighter. His brother spoke at the funeral about Carlos' dedication to the peoples' struggle. There was nothing Carlos wouldn't do for the people; He was a revolutionary! We can help his family with the medical and funeral bills:

1. Send any contribution (no matter how small) to: Perez Family

BROTHERS & SISTERS PICKING UP THE GUN

On Tuesday, August 31, Eleanor Kaplan, Sue Flores, Gerry Foote and Mort Newman (all white) had some friends over to their house in Menlo Park, California. These friends happened to be black. Shortly after their black friends left, the pigs arrived and tried to get into the house. The pigs said that some "colored guys" had committed a robbery down the street and since there had been black people in the house they must be the same ones. Well, the people who lived there knew the pigs had no warrant and no right to enter the house, so they told the pigs that they could not come in and furthermore that they were armed and intended to defend themselves.

So Mort, Eleanor, Sue and Gerry called their friends up and told them what was happening. So a bunch of people gathered outside the house. When one of the pigs pulled a gun and tried to enter the house, Mort Newman pumped a round into the chamber of his shotgun. The pigs freaked and ran into hiding behind their cars with their guns drawn. The pigs didn't get into the house!

However this incident has lead to a series of raids and warrants being issued for Mort, Eleanor, Sue and Bruce Pollack. The house was raided several times and a massive propaganda effort was launched against these brothers and sisters claiming they were paramilitary terrorists.

Everything they did was legal. But the pigs cannot relate to a people who are armed (legally) standing up for their rights. The pigs think they are the only ones who should have guns. But we know the pigs' guns are always turned against the people. The people must defend themselves from the pigs and that's all Mort Newman was doing. And that's Right On!

GREYHOUND SLAVEMASTERS

Sitting in a bar one night and it's almost midnight. A brother walks in looking like he just got a load off his mind. He had. After 19 months slaving for Greyhound, he quit.

That afternoon he told his supervisor off and walked out. He ran down some of the regulations Greyhound uses to harass and keep the workers powerless. He got in trouble because he called in sick for one day and the company told him to get a doctor's certificate saying that he was sick. There's also a company rule saying that you must call in sick two hours before your shift starts. Most people I know (the few that have gigs) get up about an hour and a half before they're supposed to be at work. What are you supposed to do then?

These and other petty rules are used by Greyhound supervisors to harass and divide the workers. Only when the people unite well we seize back the control of our lives we must have to survive.

ILLINOIS MASONIC HOSPITAL ATTEMPTS TO STEAL CHILD

A Lakeview family has recently gone thru an experience with Illinois Masonic Hospital that almost ended in disaster. The Tate family is on welfare. They haven't been getting their checks regularly (as usual) and they also didn't have a medical card. Their youngest child, Larry, has been ill - so they took him to Illinois Masonic Hospital and asked if they could use their old green card (medical card). The hospital said no and refused to treat him. It wasn't until Larry was so sick that the Tates had to take him to the emergency room that he finally was admitted to the hospital. The doctors discovered that he had to have a delicate operation which would require a lot of care afterward. These arrogant and unfeeling doctors decided that this 'charity' family couldn't take care of their own child after he had the operation, so they were going to have him placed in a foster home. Instead of trying to see what the family needed in order to receive care at home or getting on welfare's back to see that the family got their checks and medical card - these businessmen, who call themselves doctors, decided to take Larry away from his family.

But the Tate family sticks together! With some help from a sympathetic social worker at the hospital, together with friends from Angry and the Fritzi Englestein Free Clinic, arrangements were made for Larry to stay with his oldest sister. Illinois Masonic Hospital is 'so concerned' with the community that when they expand their facilities, they force people out of the neighborhood. In fact, their concern for the community would be a joke if it weren't for the tragedies and near tragedies they cause - like the Tates. What we need is free - humane medical care for all the people!

IWW TO HOLD A "SPEAK-OUT"

The Industrial Workers of the World (IWW) has announced that it will hold a speak-out on the Wage-Freeze to inform workers of the economic repression of this government and to plan action. Speakers will be: Staughton Lynd, radical organizer and historian; Frank Cadarual, IWW national speaker; Aleen Rosenthal, of the Chicago Women's Liberation Union; Michael Parisi, co-comander of Chicago Vets for Peace, and Fred Thompson, member of the IWW executive board. Other speakers will discuss the effect of the freeze on radical caucuses within major unions, welfare recipients, and the trade union movement. There will be films and open discussion.
SATURDAY - NOVEMBER 6th - at 4pm.
IWW HALL - 2440 N. LINCOLN AVE.

REVOLUTION HEAD SHOP

About two weeks ago some brothers and sisters were having a party at Revolution, a head shop on the southwest side, and plainclothes pigs from the 8th didtrict, led by Commander Currey, raided their place without a search warrant. The pigs busted 19 people on possession charges even though there was no evidence--because there wasn't any dope around.

There has been constant harassment of the people who work at Revolution by both the Chicago pigs and the American Nazi Party. But don't let that stop you from checking out the Revolution.

BOGAN HIGH SCHOOL

There has been a victory won at Bogan High School. When school started, 81 students were kicked out for violations of the "dress code". Students weren't supposed to wear jeans, boots, shirts with political symbols, hot pants, shorts, and no long hair, mustaches or beards. The administration has backed down and all of us still have our hair long.

We weren't about to give in any longer to this violation of our personal freedom. We organized ourselves and leafleted at the school demanding an end to this r diculous dress code. In the first place, dress codes cannnot be enforced in public schools. In the second place, the day has passed when the bunch of fools and fascists who run the schools can tell us what to do.

We learn two things from this action at Bogan. We learned that repression leads to resistance. We learned that when people unite and get on the case, we can win. Now, we must get together on the other issues which affact our lives and fight to further victories.

POWER TO THE STUDENTS!
DARE TO STRUGGLE, DARE TO WIN!

BROTHER ED HANSEN DIES

We of Rising Up Angry were very sorry to learn of the death of brother Ed Hansen. Ed was 65 years old, a lifetime radical, member of the Industrial Workers of the World. A good part of his life was spent at sea, and he participated in the radical struggles of the seamen to unionize. At the time of his death he was working as a watchmaker and living in the Lakeview area. He served the revolution with his fine photography.

Late at night, in the final hours of putting out an issue of Angry, Ed would always be there when called upon to help with the developing and printing of pictures, helping in any way he could. Ed Hansen was a Peoples' Photographer in the truest sense. He did a lot of work for radical papers, like Second City and the Industrial Worker. He put in a lot of time as a volunteer worker at the Guild Bookstore.

VETS---THE NOT SO BRIGHT FUTURE

Did you just get out of the service? Or are you about to get out? Or are you thinking of enlisting so you can "learn a skill" and get a better job when you get out? If so you should check out these depressing facts!

Next year 1,115,000 men will leave the United States military. A whole lot of these brothers are going to end up on the streets unemployed with little possibility of finding a gig. Even though unemployment in the country as a whole is listed at 6% (which is very high), the percentage among veterans is over twice as high (14.2%). However, the military says that just because there aren't any jobs the vet still gets a good deal because he can go back to school on the GI bill. Now if you do want to go to school--and most of us don't want to---how are you going to live on $175/month, which is what the GI bill pays. $175/month to go to college at today's prices? Since this is next to impossible very few Nam vets are doing it (only about 20%).

So if you make it thru Nam alive and aren't a junkie yet,you can look forward to being unemployed. Dig it! There is nothing good or groovy about the army---it offers you no future. Your only future is with the people as a freedom fighter.

TULEY CONTINUES STRUGGLE

The Latin sisters and brothers at Tuley (67% of it's students are Latin) have pushed the struggle for a voice in their education another step ahead this week. For a long time Dr. Fink, their principal, has continually refused to even recognize any suggestions made by students, teachers or parents on how to improve the school's education. Last spring, the people got organized and presented demands. They are the Pro Tuley Coalition, made up of 19 organizations - all the way from the Tuley Union Delegates, Concerned Latins of U. of I. to Los Hijos de Caguas (baseball team), Latin American Lions Club, P.R. Art Association, The Rican Journal, and the Jovenes Revolutionarios. The necessary changes demanded were: classes for the Latin students who don't speak :En
english, classes on Latin history and culture, and struggle, more Latin teachers and the replacement of Dr. Fink by an understanding Latin principal. Dr. Fink refused to move. An example of his "community responsibility" was his action in last springs meeting, where he spoke for 45 minutes, listened for 15 minutes and then walked out. And no changes.

This August 24th, the community went down to the Board of Education for a special hearing. They gove the Board 30 days to decide whether or not to remove the principal. In the meantime, Fink has stepped up his insensitive, rascist practices. He has again allowed a degrading play, "Hot Carmen", a play about a prostitute, to be produced at the school with Latins playing the parts of prostitutes, gangbangers and thieves - that he thinks they are. (He once told Ray Figueroa, one of the heaviest brothers in the Coalition, who graduated from Tuley, that he would never make anything more than a clerk. Ray has graduated from college.)

Fink in enforcing a illegal law - that if any student misses 20 days of a class for any reason (except play practice) she or he fails the class. The Board of Education has not passed on this proposal yet. Tuley is the only school that has this "law". If that doesn't eliminate the students he doesn't want around, Fink transfers them to Logan Continuation School where life is so bad most of the people drop out just to survive. Any teacher that questions his tactics gets fired or promoted out of his way. Such was the case of Mrs. Figueroa, a former Tuley Spanish teacher, who is now the Assistant Principal of Wells. Teachers who are supporting their students and the community actions, can probably expect the same fate.

October 7th, the Coalition and many students picketed Tuley. Newspaper and TV reporters were at the school. 3 plainclothes pigs came in and broke it up and beat up Edwin Benatoz, a brother who did not move fast enough for them. 3 buses traveled to the Board of Education where the Board was forced to set a time for a final decision.

COMMUNITY CONTROL OF THE SCHOOLS!

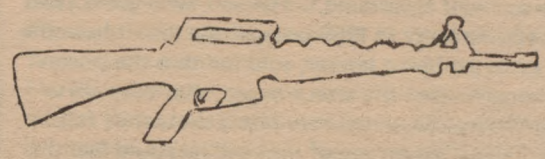
KEDVALE PARK

One of the best things that's happening is that brothers and sisters all over Chicago are beginning to take their own initiative in fighting against the conditions in Chicago and the whole United States.

When people in different neighborhoods or factories form their own organizations to fight for "power to the people"---that's great---and Rising Up Angry well do all we can to help.

Just recently we got a copy of this leaflet that was put out by some heavy people at Kedvale Park. Even though the information is old we think this is a very good example of the kind of thing people all over can begin doing. Check it out closely, because it's heavy.



On August 15, 1971 about 30 people were by Kedvale Park drinking and just having fun when the Chicago police pulled up and started hassling everyone. They harassed them, the whole time by calling the chicks tramps and other names to that effect. They were arrested, thankfully some brothers and sisters did escape, but the rest were put in the lock up. They go to court September 8th.

On August 17, 1971, two days later, the pigs attacked the park again and busted 12 more people that had did nothing. They hauled them all in making out arrests for possession of grass they had found under a garbage can. After they were tired of harassing they ripped up the arrest papers and told everyone to go.

Also a month or so ago one brother was sitting in his car by Kedvale Park while Chicago pigs pulled up. They started harassing him till he tried to cut out in his car, they caught him and dragged him out of the car, pulling on his long hair, kicking him in the ribs and beating on him. When his fellow brothers boggied from their car to help, the other pigs took their clubs and told them to get the fuck back in, they were all arrested. When they got to the station the beat up brother asked why they beat him They said "We didn't touch you."

These are only a few of the things that are happening because we see that the government of AMERIKKA is a capitalistic figure. There are many more busts around Chicago which we never hear about and that's what J. Edgar Hoover and his clowns want. Also Daley and his mad dogs (pigs)- they'd like us to get a hair cut, and to join in the rat race to forget how they are getting rich off our backs, but we must fight back like the Viet Cong, like the Indians did, we must unite everyone together to organize.

Revolutionary organizations everywhere are organizing fast and the things that must be given back to the people will be. We must fight for a stop to capitalism, to the oppression of women, and a stop to Racism.

We have to get into the streets when we see our brothers and sisters beat and harassed. AMERIKKKA teaches soldiers it's either you or the enemy in the field. We should as Revolutionaries feel the same when we see the pigs on our brothers and sisters.

But remember some people don't realize what's happening, we must try to bring them to our side. Try peace before action.

We are all AMERIKONGS to the AMERIKAN government.

THE NEW WORLD IS

LONG LIVE ATTICA!

Over 50% of the inmates at Attica come from New York City - that's a 9 hour ride by car of bus and $62 plane trip - it couldn't be made very often. The Prisoner Solidarity Committee chartered a bus from New York to bring families of prisoners to Attica who were trying to find out if their sons, fathers, brothers and husbands were dead or alive. It had been 2 weeks since the massacre and prison officials were just now letting visitors in - for I hour - and they had to be registered and fingerprinted before they went in. When they went in, this is what they foung:

Mrs. Vivian Killebrew's 22 year old son has 6 buchshot wounds in his chest, one in his back and a bandage over his heart. "He tried to pull the bandage off, I saw it festering and he couldn't get the gauze away so I said nevermind." Her son, who got 4 years for petty larcenty in 1969 because she didn't have the money to get him a lawyer, told her that the prisoners thought when the attack began, that they were using blanks. So, when they heard shots they fell. "This fellow fell on top of him and he could feel the blood from this fellow on top of him running down on him. He realized they were real bullets."

Mrs. Georgia Hicks said, "Sure I have relatives in there - I have 2,999 brothers and one son." During the visit she had with her son, Clarence, he never smiled - he had a far away look in his eyes. He said, "Everytime I go to sleep at night I can see my brothe brothers falling."

The wife of a wounded prisoner told his story after finally getting in to see him. "They took him to the hospital where he stayed for two days. They put gauze over the wound in his arm - that was all. When he came down to see me, he had a big bullet wound in his arm where the bullet went right through on the other side. The hole was about 2 inches in diameter and all they did was put a bandage on it. He told me they gave him no medical treatment whatever. The only thing he could do was wash around the wound the best he could.

Another woman, who was afraid to give her name because she fears for her son's life, said her son told her that Elliot Barkley, 21 (nicknamed L.D.) was wounded and lying face down in the courtyard. Long after the prison was secured, a trooper walked up to him and shot him in the back with a shotgun, killing him. L.D. was the brother with wire rimmed glasses who read the demands. The woman said her son told her the story and said, "You tell the truth, Ma."

The truth is - this is a fascist murdering government. The truth is - the revolutionary spirit of the brothers at Attica is spreading inside and outside of prisons all over the country.
TEAR THE PRISON WALLS DOWN!!
DEATH TO THE FASCIST PIGS!!

PANTHERS AT PONTIAC PRISON

The news broadcasts said there were gang fights at Pontiac Prison. Then they said everything was under control. Nothing for anyone to worry about.

The next day, Sunday, October 3, the Black Panther Party bus was going to Pontiac to bring relatives and loved ones down to visit the incarcerated brothers. This bus was harassed from the start. The FBI pressured the bus company not to supply the buses. The Panthers got another bus from a different company. Local pigs called and threatened them. Finally one bus, instead of two, made it to Pontiac. Guards had the entrance blocked and refused to allow anyone to enter. They had prepared statements that were full of contradictions. On one hand, the prison officials said everything was under control. On the other hand, no one could be admitted. They said the trouble was not directed against the prison administration; yet 2 guards were injured and 2 brothers were shot. They said it was blacks fighting blacks, but 2 blacks, 2 whites and 2 guards were injured. The warden said he personally gave the order to shoot the two brothers.

The official pigs didn't let anyone in to find out the truth about what happened and what was now happening to the inmates. Reports from the inside tell of a lot of brutality and torture.

SCHOOL & WHIPPLE

The pigs told us that after October Ist we wouldn't be able to be on the streets anymore. They told us that we had to watch our step. Now don't ask me what's so important about October Ist---we still haven't been able to figure that out. But, true to their words, they began stepping up the harassment on October Ist.

We usually hang out in front of St. Veronica's at School & Whipple, so we were prepared when the pigs came to bust us for loitering--or whatever else they can think up. When they came we had our escape route planned and we all cut out to different cribs Then when the pigs left we came back out. It's so stupid, man, to hassle us for nothing. They just push and push and then wonder why we call them pigs.

DALLAS JAIL BROTHERS REVOLT AGAIN

On September 24 the brothers of Dallas (Texas) County Jail revolted to protest jail conditions. They demanded better medical care, better food and better prison mail policies.

That time they agreed to negotiate with the Sheriff, Clarence Jones. Monday, October 4, they got tired of waiting. They fought it out with the pigs for three hours. The brothers used pieces of iron and weighted shoes. One brother yelled, "We don't want no more talk. This time we fight."

The brothers fought the pigs hand to hand, cell to cell. One brother died, five brothers were injured and several pigs were messed up.

The brothers stated that they were not just protesting jail conditions. They were also protesting the persecution of the poor in general.

SUMMERDALE PIGS: NOSIE NAZI'S

It isn't enough that the pigs in Summerdale (20th) district have an over abundance of uniformed and plainclothes pigs, patrol cars and unmarked cars, regular beat and special division detectives, employees of the courts, social service agencies and community workers to do their brand of 'serving and protecting'. They spend our money thinking up ways to go after even more details of our lives. The gestapo forces figure they have to know every thought we have and every sigh we breathe - even in school.

Teachers at Amundsen, Trumble, Senn, all 20th district schools, have been asked to hand over names of all "freaky or dissenting" students and any special information they might have about them. That way, when something happens that disrupts the governments game, their body guards (the pigs) have a ready made list of 'guilty' revolutionary agitators they can catch up in their nets.

To all teachers and school workers - say nothing to our enemies. And, even if some teachers decide to act against the people by giving out names to the pigs, there are more and more students, every day, who are hip to how capitalism messes people up and who refuse to accept this fascist government. That list of 'dissenting and freaky' brothers and sisters is getting longer every day.

OURS TO BUILD

APARTMENT HUNTING

We had an article in about a month ago about our family not being able to get a place to live. We almost had a place, but we didn't get it. Here's how we lost it.

This sister and her family have been without a home for over 3 months.

We called to see if we could get this apartment and they said to be in front of the place between 6 and 9pm. We went up there and looked at the apartment. The people on the second floor showed it to us. The second time we went back we met two men and asked if they were the owners. They said they were and wanted to know if we wanted the apartment. We said yes. They rapped about the apartment and we payed $150 deposit and told them we'd pay the rest Saturday. On Saturday, the same two men were there and we paid the other $50 and got the keys to the apartment and a receipt.

So we went to move in Monday. We got everything out of storage and we went to the new apartment. We went upstairs to open the door and the keys didn't work. We tried and tried the front and back door on the third and first floor, and they didn't work. Then we found out the people that own the building lived on the second floor. And they were selling the building to a real estate co. So they called the real estate company and rapped to them about what happened. So a guy from the real estate came down to the new apartment and talked to us.

The people that we paid the rent to were not in the real estate co., according to them. So we found out we were ripped off for $200 and that was about all the money we had. So everything was out of storage and we couldn't take it back because the storage place was closed. So we took all the furniture to my brothers crib and parked the truck out in front. So my brothers had seen an apartment for rent down the street from them. They went to try to rent it and they got it. So we put all the furniture in my brothers new crib. But it isn't big enough for 10 people. My four brothers are living there new, and my parents and little brother and sisters are still living with my married sister. And me - I'm still living with friends.

If you know of an apartment for rent for 10 people, 3 or 4 bedrooms, please let us know. We've been without a home for over 3 months. Call RUA: 472-1791 and leave a message.

Last Sunday (October 3rd) night brothers and sisters gathered by the laundromat, like always, to rap and find out what's going on. There were about 15 or so people around just talking. At approximatley 8:30 the pigs came by and like always they cannot dig the people having a good time. So the cops told everybody to split or get busted.

Well, one brother had his radio going and was digging the jams and he couldn't hear what the cop was saying. So the brother asks politely if the cop could repeat what he said. The cop immediately freaked and ran over and grabbed the brother and told him he was under arrest and then they snatched another brother and arrested him.

Meanwhile, a pig lackey and known neighborhood troublemaker (Mr. Martin) ran over and pointed to a brother and said he was the troublemaker (a fat pig lie.) All this brother was doing was rapping to some sisters and checking out the police so that they wouldn't brutally beat the arrested brothers.

The police are so uptight and insecure that they cannot have anyone ask them a question without busting them for it. We know that the people have a right to ask all the questions they want and a right to all the answers. We know that we the people should control the police and not some rich, power crazy, fat old man by the name of Daley. We also know that the police do not serve and protect in our community and because they don't we will smash them. The people that do serve and protect and educate are revolutionaries. Like Rising Up Angry with a breakfast probram, legal program, health care and a paper. All power to the people who get together to seize the time and free the mind.

LABAUGH WOODS

Two brothers and a sister were drinking beer in one of the shelterhouses at the woods. Two park pigs came up to them and asked them for some identification. They gave it to them.

One of the brothers (we'll call him Z) turned around and saw both of the pigs choking the other brother with their sticks. He told them to lay off and shoved them off the brother. The pigs then started beating Z with their sticks, knocking him to the ground. Then they started to cuff him---after they got one cuff on brother Z jumped up and whipped the pigs in their faces with the handcuffs. The pigs fell back and one of them oinked "Give me back my cuffs, they cost thirteen bucks."

Brother Z laughed and walked off. The other brother and the sister escaped but were captured later. The brother was returned to St. Charles (he had run from there).

Z went home. Unfortunately the pigs had his ID so they knew where to find him. At four in the morning six Chicago blueboys busted into his crib and beat him. He was charged with escape, resisting, battery and assault.

This is not an isolated incident. Something like this, where a brother or sister is busted on jive charges for defending their rights, happens almost every hour in Chicago.

This is why we need a legal program, to defend our people, to keep them on the streets. Check out Rising Up Angry's Legal Program at 2744 N. Lincoln, Wednesday nights from 7 to 9 p.m. Or call 472-1791 any day between 12 and 6 p.m.

ALBANY PARK

Recently, pigs from the FBI have been raiding people's cribs in the neighborhood. They came into this one sister's house without a warrant to search it for dope. Her mother started getting on their case so they left and came back a few days later with a warrant and searched her house again but didn't find anything.

One brother from around Central Park & Ainslie recently bought a van and plates from a friend. The pigs busted him on charges of false license plates and sticker. Early the next morning the pigs came and pushed the brothers van into the middle of the street and gave him a ticket for obstructing traffic. Later on that day they came back with a tow truck, but some people had already moved the van to a safe place.

A sister from Albany Park was busted by two pigs as they came out of a tavern. They took her to Audy and busted her on charges of runaway. The next morning they took her to the Continental Trailways bus station and put her on a bus to Florida, where her parents live. During a 30 minute rest stop in Indianapolis, she escaped from her matron and hid away. Pigs came and surrounded the bus station but they couldn't find her. And they won't either.

POWER TO THE PEOPLE!

ALBANY PARK

On Monday night, Oct. 11th at about 9:30, a raiding party of 10 to 15 pigs from downtown and 17th district entered the house at the corner of Central Park and Ainslie. They had a warrent for LSD, Marijuana, dangerous drugs and narcotic paraphernalia. After searching the house for about an hour the pigs produced a paper bag containing a small quantity of marijuana and some tranquilizers and busted the brother, Garry, who lives there. They charged him with possession of marijuana and dangerous drugs and put him in their car.

Outside the house the 2 pigs parked in an unmarked car in the alley stopped 2 brothers who were walking down the street, searched and harrassed them for a while and then told them they were going to be arrested on charges of loitering and disorderly conduct. They were brought into the house while the pigs continued to search. One brother was let go and the other was put in the car with Garry and taken down to the station.
In the station the pigs filled out an arrest record on the other brother but finally let him go. Garry was transferred to Audy and went to court the next day at Wood St. boys court, where he was released in the custody of his parents. The court date was set for Nov. 11th.

For a long time the corner has been a place where a lot of sisters and brothers, from all over the neighborhood, hung and rapped and got high. The pigs have been harrassing the people there for a long time and this is just an escalation of their repression. Now, more than ever, people are coming together to build for the revolution. We realize that the people will make the revolution in thier communities by forming revolutionary programs and struggling with each other to unify and stop the pigs' oppression.

LONG LIVE THE PEO

If you were driving down Lincoln Avenue anywhere near Fullerton last Saturday night, you couldn't help but notice something going on. If it was before 11:00pm - the scene was hundreds of brothers and sisters having a good time at the People's Dance. After 11:00, you could not help but notice 27 pig cars and a number of paddy wagons with over 700 righteously angry people scattered out in the street. Five people were busted and the last band, McCluhan, didn't even get to play.

For those who never heard of People's Dances - the one last Saturday night was the 3rd of a series of dances sponsored by the Rising Up Angry Organization. We originally thought of the idea to raise money to support our programs that serve the people and we also thought it would be hip to bring people together from different parts of the city to hear "their" music at a low cost - $1 to get in. Sounds simple, but in Chicago that's a heavy thing. Large gatherings of people who come together to hear music is basically illegal in Chicago. Remember the old days - when we could hear music in the parks? Do it now and you're a criminal. Remember the many dance halls that no longer exist? The only exceptions to this are the big money making superstar rock events, where you pay from $4 to $10 a seat and if you get up to dance you've got some funky Andy Frain usher on your case - not to mention all the people o.d.ing around you. The other thing that's heavy is we can hear 'our' music. When else do local neighborhood bands get a chance to play and where else do people of all different neighborhoods get to hear their music? And, as anyone who has been to a People's Dance can verify, there's some heavy music coming out of the streets of Chicago.

So, it didn't come as any great surprise that many brothers and sisters would dig up on People's Dances and it also didn't come as any great surprise that the pigs would eventually try to bust them up. After all, it's not exactly their "cup of tea" to see so many brothers and sisters together, especially at a RUA event. So l urday night - they tried to close the dance.

Since we have decided to continue the dances future, we want everyone to know why we did w did last Saturday night and what we would like t happen in the future. The policy of our security make the dances happen - in other words, to coo tensions among the people and keep the pigs aw time the pigs stopped in front of the hall, we tol that this was a people's dance and the people ha under control. We had barred all hard drugs fro dance, had medical people dealing with o.d.'s an out every fight. Finally, at 11:00, 3 pig cars sto front of the hall. They said that things were out trol and the dance was over. We said it wasn't o control and we didn't want to end the dance. So going to try to get everyone off the street so the wouldn't bother us. But, then we noticed the se was radioing in for reinforcements. It became cl they wanted us inside so when the reinforcemen they could surround the building and come in. S when we decided to ask everyone to leave the da Within minutes the streets were lined with pigs. were really angry at the pigs and 5 people were b for the heavy crime of telling the pigs what they of them for busting up the dance.

In the future, since we know that the pigs disappear in fascist Chicago, RUA is asking the s and brothers to come to the People's Dances wit heads together. For when we're together, having time, digging the music and dancing and the spir high - no funky fascists are going to bring us dow do have to deal with a few things in order to bui unity. We also want people to understand that the dances are for all the people - black, brown and white, sisters and brothers. A revolutionary good time includes respect for one another. We are asking the brothers to show more respect for the sisters - they don't appreciate guys that grab at them and treat them like they don't have a right to decide what they want to do and who they want to be with. People can have a good time without copping an attitude about each other.

It would be unfair to only criticize, because the beauty and spirit of the people was also there. Although no one was paid - people from various neighborhoods, decorated the place, donated food, did the publicity, spent long hours in the kitchen serving food and people volunteered very quickly to help move equipment, do security and so on. People also showed their understanding that it was a people's event whenever a bad scene was about to break out - people quickly said, "why don't you be cool - this is a people's dance." There was also consistent respect for Rising Up Angry's security. Whenever we requested something or told someone to be cool - there was never an argument. Rising Up Angry always stands with the people and people understand that our security is not there to rip the people off or hassle them. And there are always more than enough brothers and sisters who volunteer to stay after and clean up. Two hip brothers even took the garbage cans out to the street to collect empty bottles so that no one would get cut on broken glass. This is the true spirit of the people and we say - right on!

This small contribution of time and energy has been an act in service of the people, and will prepare people for far higher levels of cooperation and struggle in the future. These dances are a political event. They are a step toward unity - and unity is the basis of revolution!

URDAY NIGHT NOVEMBER 6 8:00 ON
1632 N. MILWAUKEE AVENUE

Tupamaros escape maximum security

On September 6, 1971, 106 Tupamaros (members of the Movimento de Liberacion Nacional, MLN), revolutionaries from the small country of Uruguay, escaped from the maximum security Runta Carretas jail. This was one of the boldest, most spectacular jailbreaks in history--both because of the numbers of revolutionaries who escaped and the fact that some of the MLN's top leaders were among the escapees. Five weeks before, 38 women, nearly all of them Tupamaros crawled out of the women's prison through a drainage pipe. Given the amount of support the Tupamaros have from the people, it is not surprising to learn that none of the escapees , the women or men, have been caught, even though there are 12,000 soldiers and police looking for them. Nor is it surprising to learn that the Tupamaros escaped through a tunnel that was dug from the outside in.

But to understand how an organization such as the Tupamaros could pull off this bold jailbreak, we've got to understand a little about their nation, Uruguay, and a little about the development of the revolutionary movement there.

Uruguay is small--only 2½ million people, nearly half of whom live in the capital city, Montevideo. The great majority of the wealth is controlled by between 1 to 2% of the population who are either puppets of or in direct cahoots with United States business. That means that a great percentage of the Uruguayan people are poor, hungry and powerless and that a large majority of them live in urban areas (cities).

The Tupamaros believe that if the people of Uruguay are going to get a better life, they have to kick the United States business out, the poor people have to take control of the economics and politics of the country and establish a socialist society. They don't believe that the United States will leave peacefully (they look at Vietnam!) nor do they believe that the Uruguayan ruling class will redistribute their wealth peacefully. So the Tupamaros feel that the only way the poor people will ever get a better life is when they pick up the gun and use revolutionary violence to kick the United States out and take over control of their own country. And because the majority of the people live in the cities, they feel the place to fight the guerrilla war is in the urban areas (rather than the countryside, like in Cuba and Vietnam).

This doesn't mean that the Tupamaros have forgotten about the poor peasants in the countryside. On the contrary, Raul Sendic, one of the founders of the Tupamaros, helped organize a union among the cane cutters. He is a hero to the rural peasants--so the Tupamaros have lots of support from their sisters and brothers in the fields of Uruguay.

Since 1963 the Tupamaros have been pulling off armed actions to support the peoples revolutionary struggle. These actions have included ripping off food from large firms and distributing it to the needy, liberating guns from military bases and money from banks. The trademark of the Tupamaros is their good manners and love and respect for the people. In one bank robbery, an old lady fainted, so the brothers pulling the job, stopped to revive her before they left. When questioned about this robbery, the chief of police said he had no concrete evidence as to who did it, but he assumed it was the Tupamaros because of "the perfect organization, the good manners of the assailants and the human touch" of the robbers

Given this history and the amount of support the Tupamaros have, the jailbreak on September 6th was not surprising. As a matter of fact one prison guard said, "They told us they were going to leave, without firing a shot, before the elections and that nobody could stop them. And that's the way it was."

The way these revolutionaries escaped is an example of perfectly executed strategy. First a tunnel was dug between the prison and the house of Billy Rial. Than a disturbance occurred in another part of the city called "The Hill". Most of the people who live there are workers in the mint plants and are known to support the MLN. These workers set buses on fire, sniped at military units and created a general uproar. At the same time they passed out leaflets, saying the riots in the streets were related to labor struggles in the plants.

At the same time this was happening the Tupamaros were escaping through their tunnel into Billy Rial's house, through a hole in the wall to another house and out to freedom. After all the prisoners had escaped Billy Rial called the police, who would not believe that such a bold escape had happened.

Eventually the pigs found out that the Tupamaros, including the leader, Raul Sendic, had escaped. This is a severe threat to the government of Uruguay. The escape occurred two months before the presidential elections. A broad left- wing coalition, called Frente Amplio is challenging the reactionary government of Uruguay. The Tupamaros are partially supporting the Frente Amplio in the election, but say they won't lay down their arms until all United States forces are out of Uruguay. In other words, the Tupamaros stand with the people regardless of who is elected President. They understand clearly that no one can be a true representative of the people of Uruguay unless all United States economic, military and political control is eliminated. And this won't be done with elections. The only way to rid Uruguay of United States terror is with guns.

The Tupamaros understand very clearly that armed struggle can be carried out only with the support of the people. And that is why the jailbreak on September 6th and their challenge to the government of Uruguay is so heavy. As revolutionaries here in the United States we must learn from the Tupamaros as an example of how to free ourselves---with the people and with the gun!

LONG LIVE THE TUPAMAROS!
ALL POWER TO THE PEOPLE!

TURNING THE PIGS' ARMY INTO THE PEOPLE'S ARMY

GI'S TELL NO LIES

The United States military is falling apart due to its own internal problems. The reason is obvious - our brothers are forced into the imperialist military to oppress people around the world so the United States ruling class can get richer. Now, this leads to a contradiction: a brother who is oppressed here at home, by the ruling class, is forced into the service to become an oppressor for the same ruling class. So the GI is both the oppressed and the oppressor. And most of us would rather fight against our own oppressor, rather than die to oppress other people (even if this feeling is unconscious). What that means is that you and I have more in common with the Vietnamese (who are supposed to be our enemies) than with Nixon. So brothers in the service are rebelling,in all kinds of ways, against the "military way of life." For example, in Nam, all kinds of righteous brothers are refusing to go into combat and the army can't do anything about it. So, seperate companies have been set up for men who refuse to go out into the field. And fragging is on the rise; according to the Pentagon, the number of fraggings had more than doubled from 1969 to 1970. Brothers

are beginning to use military sources to get supplies for revolutionary activities. In 1970, for example, there were thefts from the armories at Oakland Army Base, Fort Cronkhite, Fort Ord, and at Camp Pendleton, where a team wearing marine uniforms took nine M-16 rifles and an M-29 grenade launcher. Besides these more active forms of rebellion, the most common way brothers revolted against the service is to cut-out (go AWOL or desert.) In 1970, the army had 65,643 deserters (the equivilant of 4 infantry divisions.) This means that out of every thousand soldiers, 52.3 deserted.

With the increased destruction of the United States war machine, the revolutionary consciousness of brothers in the service is increasing rapidly. GI's becoming revolutionary fighters in the People's Army, scares the shit out of the Pentagon. It's very clear that when the Pentagon can't control its own troops, it will no longer be able to control the world - and all of us - Vietnamese, Africans, Palestinians, Uruguayans and Americans will be that much closer to freedom.

STATEMENT FROM THE CENTRAL COMMITTEE OF THE NATIONAL LIBERATION FRONT INFORMATION BRANCH OF THE PEOPLE'S REVOLUTIONARY ARMY, FT. REILEY, KANSAS

We are not a racial party of revolutionaries. In our bands of revolutionaries, we have blacks, whites, Mexicans, Puerto Ricans and other minorities, including the Indians. The majority of us are poor and fed up with capitalism and itsinequities against humanity. However, we do have intellectuals and middle class Americans who are also, like us, fed up with the injustices that capitalism bestows upon humans.

We know that the ruling class is bent on keeping us fighting among ourselves so that we won't know who our real enemies are. The Rockefellers, Du Ponts, Westinghouses, Mellons, Fords, O.E. Olds, and others who comprise the sixty families who dictate American policy. These families own the bulk of the worlds wealth, which they got by oppressing us in the United States so they could in turn exploit us for their own selfish interests. And, as you know, capitalism breeds imperialism (practice of extending the power and dominion of one community by direct territorial acquisitions or by gaining indirect control over the political or economic life of another community) which the United States does,to keep other people in other lands or communities oppressed, so that they can also exploit these communities for more capital for their own selfish interests. These people are the ruling circle of the United States. And, as you can see, they not only oppress us here in America, but they also oppress and enslave the whole world. The ruling class has no intention of giving up this wealth. Their only intentions, as they have demonstrated time after time, are to acquire more wealth. And the people are putting a stop to it now. But, for this to be truly successful, we must have all of the people.

We will seize the factories and the means of production, in the name of the people. Because we know that the ruling class stole this wealth, we will seize it and give it back to the people who the ruling class stole it from. We, the people, will redistribute this wealth among the world and the people of the United States. For, if the masses in the United States were to keep all, we too would be just like the ruling class; theiving, capitalistic, imperialistic, fascist pigs.

It is now that the people of all races have become consciously aware of what is happening, and have armed themselves with the revolutionary spirit and are fighting throughout the land. However, the ruling class are not allowing any of this to be known to the masses of people. They fear that if the people heard the truth, more of the masses would take to the streets, and the countryside, until they have no hope of keeping us oppressed and exploited for their own selfish interest. But they must surrender to the "Power of the People." ALL PEOPLE MUST UNITE! As we, the people, must defeat the ruling classes and all their reactionaries and their lackies.

The Armed Forces of the United States, which is really the Armed Forces of the ruling class, are already consciously aware of what's happening. Many are already among our ranks. Still more are fighting within the Forces and forming bands, while still others are forming their bands in the Forces for the purpose of fighting when they get out of the ruling class's Armed Forces. In the final analysis, it will be the Armed Forces who will join us, as a whole, to seize "ALL POWER TO THE PEOPLE!"

WHY WE DIG SOCIALISM

While rapping to brothers and sisters on why things in this country are so bad, we often mention examples of how problems get solved in revolutionary countries like China, Cuba, and North Vietnam. Usually, as soon as we mention communist countries, many people begin to raise objections and express criticism of communism in general. This is natural--we have all been brought up in a country where the schools, the papers, the TV, and everything else run by the man are constantly running down how awful communism must be.

We welcome your questions about the revolutionary countries. It gives us a chance to share with you of what we have learned (both by studying and by traveling to these countries). And while most communist-led revolutions have been in so-called "underdeveloped" countries, and the U.S. is an urban industrial country, there are still some important lessons we can learn from these revolutions.

Here are a few of the questions we are asked most frequently:

Vietnamese school children are enjoying a day at the zoo. School doesn't have to be a drag like it is here.

HOW CAN EVERYTHING BE FREE UNDER SOCIALISM?

It can't. You can never get something for nothing! Under any social system goods and services are produced only if people work. Under socialism, the goods produced are socially owned (owned by everybody) and are distributed among the people more or less equally. So, life in general, is better for all the people. Under capitalism, the goods produced are owned by a small class of people who own all the banks, factories, etc. They in turn sell the goods to those who have money. If you don't have money, you're out of the picture.

WE HEARD THAT THINGS ARE GETTING SO BAD IN CUBA THAT FOOD IS RATIONED.

Yeah, dig it. Food is rationed in Cuba, all right. But it's because things are getting better! Before the revolution, a few people in Havana dined on champaign and caviar, while the poor people in the countryside lived on a starvation diet. Children grew up never tasting milk, and having meat only on holidays. Now food production is way up, and the rationing system is used to guarantee fair distribution of food. Every child in Cuba is now guaranteed milk every day.

I HEAR THE COMMUNIST COUNTRIES BUST YOU FOR DRUGS JUST LIKE HERE.

Right, in some countries, but there is a different reason for it. Most revolutionary countries have had direct experience with hard drugs being used as a tool of imperialism. For example, opium was unknown in China until it was introduced by the British. During the Opium Wars in the 1800's England went to war with China for the right to sell opium to the Chinese. To the capitalist, drugs are the perfect product. It enslaves people into buying it with absolutely no money spent on advertising. In many parts of the world people have come to hate drugs. In the movie "The Battle of Algiers" which is about the Algerian revolution, one of the first things the revolutionaries do is wipe out the pushers in their community. By contrast, in the U.S. where dope is illegal, there are more addicts than anywhere else in the world.

DOES SOCIALISM REALLY WORK? ISN'T IT AGAINST HUMAN NATURE?

The capitalists are always running off at the mouth ahead by putting your foot in someone else's face. They do this to try to justify their own criminal way of life. In reality, most of what we commonly call "human nature" are just attitudes and habits we get from the society we live in. If we organize our society around exploiting other people and getting ahead at the expense of others, then that's the kind of "human nature" we get. On the other hand, if we organize our lives around cooperation and all getting ahead together, we see how beautiful human nature can be. Of course socialism works, and it is the social system which is preferred by the majority of people in the world.

DOESN'T THE HIGHER STANDARD OF LIVING IN THE U.S. PROVE THAT CAPITALISM IS BETTER FOR THE PEOPLE?

No. First of all, that higher standard of living is only on paper. If you take all the wealth in the country and divide it by the number of people, you see that America does have the highest wealth per person in the world. But that's not the way it's actually divided! No modern industrial country in the world has the wretched slums and poverty that exist in American cities. The health standards of the American people are far below those of many other countries. Many countries have a higher literacy rate than the United States. America's wealth is in the hands of the few.

Secondly, it must be remembered that the U.S. began the process of industrialization over one hundred years ago. Many of the socialist countries were colonies throughout this period, and began industrialization only in the last few decades following their revolutions.

Third, much of the wealth of Amerika has simply been stolen from little countries all over the world by

WHY DON'T THE COMMUNIST COUNTRIES ALLOW FREE ELECTIONS?

They do. But because their purpose is different they are organized differently than the rigged elections in the capitalist countries. In capitalist countries, the purpose of elections is to give the people the (false) impression that they control the government. The usual format is that two capitalists who agree on every major issue are presented at election time for the people's "choice". Revolutionaries are forbidden by law to run for office. (If you want to check this out, read Chicago or Saigon election laws). The only parties which are legitimate are those which represent the capitalist class (the men who own and control everything).

In socialist countries, the armed forces of the people have defeated the armed forces of the ruling class or colonial power. In order to insure that the people's victory is not lost, two important policies are followed. First, the defeated forces are not allowed to regroup to try for a comeback. Thus capitalist and racist organizations and publications are outlawed. Second, for the first time the masses of people are drawn into the democratic transformation of the society. Real democracy becomes a reality. Workers elect their foreman and participate in the management of their factory. Class distinctions are abolished in the armed forces and officers live with enlisted men. Peoples courts are established in the neighborhoods to give people direct control over police and the handling of criminal offenses and family problems. Health clinics and child care centers are established and placed under local control.

At the national level periodic elections occur, but they are not of great importance. Why? Because the real participation of the people in the decision-making

WAGE–PRICE FREEZE: PHASE II

The Great White Father in Washington has now announced the second phase of his new economic program "to fight inflation." As far as poor and working people are concerned, the two phases can best be summed up as follows: Phase 1 - bend over. Phase 2 - spread your cheeks.

What is inflation anyhow, and what's so bad about it? Basically, inflation is simply an increase in the amount of money in circulation - which results in higher prices and wages, while the value of a single dollar drops. So, if everybody's wages are doubled and the price of everything is doubled, we have 100% inflation. A single dollar bill could only buy half as much as it used to, but then everyone would have twice as many of them. Everyone would live just the same.

What's so bad about inflation then? The problem is that when prices go up, wages usually do not go up as much. Working people keep falling behind. Only the strongest unions can force wage hikes equal to the cost of living. But the really big loosers are the banks, insurance companies, savings and loan companies, and "friendly Bob Adams."

Banks loan money for over long periods of time, and if the value of money drops sharply (inflation) they may even get back less than they lent out! Example: a bank loans you money to buy a car. You have to pay the bank back $100 a month for three years. But suddenly there is inflation. In two years prices double and wages go up almost as much. But your car payment doesn't double; it stays at $100 a month. Since you're making more, it's easy to pay the $100 a month. But the hundred dollars the bank gets is only worth half what it used to be. You win. The bank loses. No wonder banks hate inflation!

Throughout American history, there has been a constant struggle between the rich and poor on the question of inflation. Inflation is good for people who owe money and bad for the people who lend it. At the Constitutional Convention, the wealthy delegates rammed through a clause which prevented anyone from coining money except the federal government. This was to keep local governments and banks from inflating the currency. From the civil war to the turn of the century, millions of farmers joined the Greenback Party and the Free Silver movement. Both of these sought to create inflation in order to make it easier for farmers to pay off their farm mortgages and loans for seed and tools.

Emblem Is Chosen For Inflation Fight

WE FIGHT INFLATION • WE SUPPORT THE U.S. ECONOMIC PROGRAM

Special to The New York Times

WASHINGTON, Oct. 8— The Commerce Department produced today a new anti-inflation poster developed for display in stores was designed at the request of the Office of Emergency Preparedness and approved by the Cost of Living Council.

The American Retail Federation has agreed to pay all costs of printing and distributing one million of the posters.

It's the same now as it was then, the same people lend money (banks and such) and the same people owe it (you and me). Guess whose side Nixon is on -- he is now continuing "our fight against inflation" by extending the freeze on wages and prices (profits and interest rates are not frozen, of course). The only difference in Phase 2 is that slight increases in wages and prices will be permitted if they are approved by two new commissions set up by Tricky Dick.

All wage increases must be approved by a Pay Board. The board has one third of its members from big business. One third are to be "distinguished private citizens", that is, wealthy do-gooders, college presidents, foundations directors, etc. And the final third is to be officers of the biggest labor unions, that is, the very guys we have to fight every day in the shop because of their sweetheart contracts with management. Three strikes and you're out! Prices are to be controlled by a price board made up of seven "distinguished citizens". Don't hold your breath waiting for someone on your block to be appointed to the board.

Wages are easily "controlled". All the wage board has to do is declare a wage increase won by a union to be "inflationary" and the boss will gladly not give the wage increase. But how do you control increases in prices in every store and the rent on every apartment? The answer according to Nixon is an appeal for "patriotic cooperation" from your landlord, your local merchant, and Friendly Bob Adams to engage in "voluntary restraint". In other words, there is going to be no real curb on prices, only on wages. Banks are to be protected from inflation, and corporate profits are to be expanded at the expense of workers wages.

In addition, Nixon has ordered a three year freeze on federal salaries and cuts in federal aid to state and local welfare programs. Thus the only other groups who might have benefitted somewhat from reducing the rate of inflation, people on welfare, pensions, and social security, are now having the bottom cut out from under them.

"It certainly looks like the President's economic policy is headed in the right direction. Inflation just has to be controlled," said Gordon M. Metcalf, Chairman of Sears, Roebuck & Co.

"I think I would have preferred a continuation of the freeze....the President has not yet demonstrated a willingness to face a showdown with labor," said Gaylord Freeman, president of the 1st National Bank of Chicago.

"I do think that one of the greatest things he (Nixon) reiterated is that the fight against inflation is everybody's fight", said Donald M. Graham, chairman of the Continental Illinois Bank & Trust Co.

RUA says things aren't going to get better for the people until the power of the banks and the corporations is smashed and the people, not "distinguished private citizens", run the economy for the good of all.

Huey P. Newton, Minister of Defense, Black Panther Party is shaking hands with Premier Chou En-lai of The People's Republic of China. Revolutionary love and respect for people all over the world and for each other shows on the faces of these two Party leaders.

"We communists are like seeds and the people are like the soil. Wherever we go, we must unite with the people, take root and blossom among them"

Mao

GUILTY

UNTIL PROVEN INNOCENT

Rising Up Angry started a legal program to serve the people because this country has a double standard in arresting and determining people's guilt. One way for the rich and those who work for the system, and another way for the poor and those who have to try to live in the system. An example of this double standard is with a pig by the name of Nuccio and a brother named Lopez. Nuccio shot down a 17 year old boy in cold blood. After a long time he was finally convicted of murder. But he is now out on an appeal bond. On the other hand we have Jimi Lopez who is 17 years old and has a record. When the pigs found and old man, in Jimmi's neighborhood, knifed and heard it was a Latin kid, they picked him up. He didn't do it. He hasn't been convicted of anything but he's in jail waiting for trial with NO BOND. While Nuccio, a convicted murderer who is a Chicago police officer walks the streets.

There are thousands of examples of injustices that we could bring up. In this country they say you are innocent until proven guilty--but they don't say that 52% of all people in city and county jails have not been convicted of any crime, they are awaiting trial. They're in jail simply because they can't afford to post bond. In Cook County Jail many people wait 6 months to a year for their trial to come up. That's just an average, some have been in for one and a half years to two years awaiting trial. The figure of 52% is the national average of all jails, but in the Cook County Jail the percentage of people who haven't been convicted of any crime is over 75%. That clearly shows how this country discriminates against the poor. Another example is that 90% of all criminal defendants in the United States today plead guilty without a trial because they cannot afford a lawyer and all they can do is hope the judge will go easy on them. They can't get a lawyer because they don't have enough money and they can't defend themselves in the courts because common people could not understand the legal language (it's so impossible to understand) and so the people are forced to hire lawyers to get fair treatment. Or they just have to put themselves at the mercy of a prejudiced old man who'll say what punishment they should get. That is what is called a "FAIR TRIAL"!

Another example of how racist and unjust this system is, is that over 50% of the prisoners in the country are black or brown, while black and brown people are only 20% of the population. There are two reasons for this: first the judges and juries who pass judgement on people accused of crimes are nearly all white, so non-white people are at the mercy of white people's racial prejudices. And judges and juries are mainly middle class and upper class, while most people accused of crimes are poor and working people, so that poor and working people are at the mercy of people who have no understanding of the problems that we face, in the first place, and are prejudiced against us.

For these reasons and many more we started a legal program. We know that this program is not going to solve all of the people's problems with the courts. But it will soften the blow on some people. We know that just because we have several lawyers working with us and we have the support of a lot of people, that the judicial system is not going to change. It won't change until all of the people recognize that not only the judicial system but the whole government is set up to benefit the rich while robbing, jailing and exploiting the majority of people.

If you have any problems dealing with housing, criminal, military, divorce, draft, welfare or just want legal advice, come up to our office on Wednesday night from 7 till 9p.m. Our lawyers are inexpensive and sometimes free---nobody is turned away because they don't have enough money. The legal program is operating out of more places than just our office---for more information,

RISING UP ANGRY

programs to serve the people

Rising Up Angry serves the people in as many ways as we can. Besides our newspaper that gives revolutionary news from around the city, the country and the world, we have programs that help us deal with the problems that people have to face every day. Our office is at 2744 N. Lincoln Avenue and our phone is 472-1791. Please contact us if we can serve you and your family in any way.

LEGAL PROGRAM
Our legal program includes advice for: housing problems, arrests and beatings, military and draft problems, and hassles in general. Lawyers are inexpensive and sometimes free. The legal clinic is at the Angry office every Wednesday night, 7 to 9 pm. Call Rising Up Angry for more information.

FREE HEALTH CARE
Rising Up Angry is working with the Fritzi Englestein Free Peoples' Health Center at 2747 N. Wilton Avenue. The clinic provides every kind of medical care---free---it is open now on Tuesday nights (6 to 9 pm), Wednesday nights (6-to 9 pm), and Saturday after noons (1 to 4 pm). Call 348-8578.

FREE OUR SISTERS
Our sisters help women out with health care, legal aid, and if a sister is busted, we have a bail fund to get her out of jail. We have abortion information and birth control information. We are bringing women together to solve problems that we have in common.

FREE BREAKFAST FOR CHILDREN PROGRAM
We have a breakfast program to provide the children in the Lakeview and Lincoln Park communities with a hot nourishing breakfast 5 days a week, Monday thru Friday. Bring your children to the Church of the Holy Covenant, 2747 N. Wilton (at Wilton and Diversey). Breakfast is served at 7:15 and 8:30. For information call 472-1791.

RAP SESSIONS
We will have rap sessions with at least 6 people. We have movies, records and tapes that we can bring with us and we will rap about what Angry believes in, what is happening around the city, and the country, and the world, and what you can do to help the revolution. We'll come to a church, a basement, a park, anywhere.

The people need your help. All of our programs have a place for you. If your mornings are free come help out on the Breakfast Program. If your afternoons are free you can come into the office and meet someone to sell papers with. If your evenings are free you can work at the Clinic or on the Legal Program... You can work on the Sisters's Program anytime. If you have any money to spare it will be used to keep all the programs going. Please call us and help serve the people.
